

CST-200SCLF

Acidic Neutralizer

Neutralizer

SUPER CONCENTRATE

NEUTRALIZES ALKALINE DETERGENT IN AUTOMATIC WASHERS

CST-200SCLF - ensures complete neutralization of residual alkaline detergent carry-over from cleaning cycle when used in rinse cycle of automatic washer/decontaminators.

Product Features

Provides additional instrument protection - acidic rinse promotes natural passivation process.

Fights corrosion - anti-corrosive agents inhibit corrosion which help extend instrument life.

Assists with hard water management - chelating additives helps protect instruments against spotting & staining.

Multi-functional - can be use as acidic cleaner.

Directions for Use

Program machine to deliver 1/20 of a fluid ounce per gallon water (rinse cycle).

Technical Data

Chemical Description:	Natural, organic acid liquid concentrate with chelating additives and corrosion inhibitors
Physical Appearance:	Clear white liquid with a faint odor
pH:	1.7
Specific Gravity:	1.2

Order Information

- CST-200SCLF-2.5** - 2 - 2½ gallon plastic jugs per box
- CST-200SCLF-5** - 5 gallon plastic jug
- CST-200SCLF-15** - 15 gallon plastic drum
- CST-200SCLF-30** - 30 gallon plastic drum

Caution/Warnings

Care should be taken to minimize exposure. As a safety precaution, wear NIOSH approved safety gloves and goggles.
