

# Powder Detergent for Washer

**For all brands of automatic washers, low foam**

## Product Features

**Cleans a wide range of metal surfaces** - safe and effective for stainless steel, aluminum, tungsten carbide, copper and brass instruments, as well as mixed-metals and all other materials.

**Free of metal-attacking agents** - does not contain scale-forming phosphates, chlorides or hydroxides.

**Counteracts hard water** - chelating additives help protect steel by preventing scale build up.

**Rinses freely** - special surfactants blend accelerates efficient rinsing.

**Penetrates bio-burden** - frees instruments of stubborn organic encrustation.

**Versatile** - formulated for all brands of automatic washers/disinfectors.

## Directions for Use

**CST-400P** can be used manually and automatically at 1 oz. per 5 gallons water. For most cleaning applications, 1/5 oz per gallon is sufficient to ensure effective cleaning. Occasionally, more **CST-400P** may be required depending upon water quality and bio-burden load. Make sure that machine goes through both wash and rinse cycles. Post inspect all instruments. If soil or residue is present, reprocess using a higher level of **CST-400P**. For manual use, discard spent wash solution at least once a day.

## Specifications

**Chemical Description:** Concentrated powder blend of non-ionic surfactants and chelating agents

**Physical Appearance:** Clear, low viscosity liquid, easily drawn through automatic metering systems

**pH:** 10 - 10.5 at recommended dilution ratio

## Order Information

**CST-400P-5** - 5 pound pails, 4 per case

**CST-400P-25** - 25 pound fiber drum

**CST-400P-85** - 85 pound plastic drum

## Cautions/Warnings

As a safety precaution, protect skin and eyes by wearing NIOSH approved safety goggles and gloves.

**KEEP OUT OF REACH OF CHILDREN.!**

Read Material Safety Data Sheet (MSDS) before using this product.
